## Product information "Livia Single 10-830-800LM"

Recessed ceiling spot

Litegear® Livia is a stylish ceiling recessed spot with a brushed aluminum frame. Livia is available in 3 different versions, from one to three adjustable spots. Each spot is equipped with a COB LED chip. The light is concentrated in a reflector and is therefore ideal for accentuated lighting. The individual light inserts can be rotated and swiveled around an axis (+/- 20 °). Each LED chip requires an external power supply. The light color is very pleasant for living areas, conference rooms or sales areas. The high efficiency ensures fast amortization with extremely low follow-up costs compared to halogen downlights.
