Product information "Element WR QUADRO DMX/RF 44"

CONTROLS / ELEMENT SERIES

For comfortable control of LED strips and low-voltage lights, we offer various systems. You can choose between wireless, Wifi or DMX connection and benefit from the respective advantages.

WR QUADRO DMX / RF 44

The Litegear Element wall remote is an elegant 4-channel (RGBW) remote control. Use the 1-4 buttons to select four zones. The color is selected via the touch-sensitive color wheel. Each basic color can be switched on or off individually using the R, G, B, W keys. Use the button in the middle to turn the controller on and off and press the button to increase or decrease the whole brightness. The "S" button is used to save and recall scenes. The button with the Play / Pause sign and with the clock is used to recall 10 internal programs. The remote control is also able to send DMX signals via cable. The Controller requires an external power supply. The range is about 20m in free space. For remote control you need a suitable converter.
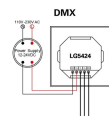

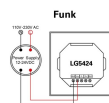

Properties:

Colorfade (Rainbow Pass) at 10 speeds
Combine Up to 8 remote controls can be combined
each zone can be controlled or synchronized separately
Brightness control of each color
Synchronization of the color runs
