

Performa Pro 36/28-930-2800LM

Product information "Performa Pro 36/28-930-2800LM"

LED Tracklight

The new Litegear® Performa Pro is able to replace conventional halogen or discharge tracklights. Performa Pro now has better performance in light output and a lower price due to a more efficient assembling process. The housing and heatsink is made of one aluminum diecast part for better heat dissipation. They are very energy friendly and can save up 60% of energy costs. Litegear® LED tracklights are available with different power and different colour temperatures. For better color performance you can choose also models with True Color and high CRI over 90Ra or a special Exciting Color version for fashion which reproduces a cooler white while the other colors are warm and intensive.

Performa Pro is also available equipped with special LED chips such as: gold for bread and bakery or Meat+ and Fresh Meat for meat and ham.

The innovative internal heatsink will not collect much dust and fluff, hence heat dissipation will be perfect even after years of intensive use. You can choose from different housing colors.

Performa Pro stands for perfect design, high efficiency and great performance

Applications:

- supermarket
- fashion
- furniture store
- automotive
- museumautomotive

museum

Technical Details:

Luminous Flux	2800 lm
Light Yield:	93 lm/W
Light Temperature:	3000 K
Color Rendering Index (CRI)	≥90 Ra
Color Consistency (SDCM):	4
Power Consumption:	30 W
Power Factor (PF):	0.9
Operating Hours:	>30.000 h L70/B50
Switching Cycles:	>50.000
Ignition Time:	<1 s
Ambient Temperature (TA):	-20°C - 45°C
Housing Material:	aluminum
Housing Color	silver
Coating:	powder-coated
Pivot Range pan:	330 °
Pivot Range tilt:	90 °
Net Weight:	1759 g
Warranty	2 years
