

Röhre Performance Grow 1500 23-RED-BLUE

Product information "Röhre Performance Grow 1500 23-RED-BLUE"

LED Tube

The next generation of our successful Litegear® Performance LED tube Serie: the Performance PRO MKII line. More light output, better efficiency, lower price, longer lifespan, slim and compatible design like original fluorescent tube. Best performance ever! You can save more energy or just get better brightness in your applications. Very easy to replace traditional fluorescent tubes and save up to 65% of energy. Just exchange the starter to a included dummy starter with fuse and replace the tubes. Done with seconds. benefit from flicker free instant light with low glare and good color rendering. With the rotatable endcaps it is suitable for any position in the G13 socket. Available in different CCT colors. LED is good for our environment: free of mercury and other toxic material. Change for a green future with LED tubes from Litegear's Performance pro series.
