Xona Maxima Basic DALI 35W

Product information "Xona Maxima Basic DALI 35W"

Dali dimmable ballast for Maxima Basic

To dim the LED modules you need a controllable ballast which can be dimmed by Dali signal. For dimming you need a LED light module with 8-12-wire tapping. The standard power supply is omitted in this variant and will be deducted from the original costs.
Optionally, a cheaper 1-10V dimmable version is available!
