

Xona Maxima Basic 1-10V Driver 50W

Product information "Xona Maxima Basic 1-10V Driver 50W"

1-10V dimmable driver for Litegear Maxima Basic

To dim the LED modules you need a controllable ballast which can be dimmed by analog 1-10V signal. For dimming you need a LED light module with 8-12-wire tapping. The standard power supply is omitted in this variant and will be deducted from the original costs. Optionally, is a Dali dimmable version available!
