Product information "Element WR QUADRO RF 21"

CONTROLS / ELEMENT SERIES
To comfortable control of LED strips and Low-voltage lights, we offer various System. You can choose between wireless, Wifi or DMX connecting and benefit from the respective advantages.
WR QUADRO RF 21

The Litegear Element wall remote is a 4-channel (RGBW) remote control. The I/O keys are used to turn the appropriate controller on or off. Two scenes can be occupied. The color is selected via the "C" key. It is possible to select the color by pressing or holding. The color white is switched separately via the "W" button and also by holding the button the it dims up and down. The brightness of RGB colors is adjusted by the sun. The "S" button is used to save and recall scenes. The range is about 20m in free space. For remote control you need a suitable converter.

Properties:
   Colorfade (Rainbow Pass) at 10 speeds
   RGB or RGBW mode (Combining 4 colors gives you a wider color spectrum with pastel colors)
   Brightness control of each color
   Synchronization of the color runs
