

Element POWERMANAGER ENOCEAN MONO DIM

Product information "Element POWERMANAGER ENOCEAN MONO DIM"

CONTROLS / ELEMENT SERIES

For comfortable control of LED strips and low-voltage lights, we offer various systems. You can choose between wireless, Wifi or DMX connection and benefit from the respective advantages

POWERMANAGER ENOCEAN MONO DIM

The LG5483 controller is a 4-channel dimmer module. The controller is ideal for controlling and dimming single-color LED strips. It can be addressed via the corresponding radio operations. It is easy to connect the suitable remote control through the "Sync button". For power input it requires an external power supply.

Properties:

- Status memory in case of power failure
- Power 4x5A per channel
