

Nava Circle 100 6-830-DIM-420LM

Product information "Nava Circle 100 6-830-DIM-420LM"

recessed luminaire

Litegear® Nava LED recessed luminaire with illuminated glass rim for installation in suspended ceilings or plasterboard walls. Easy installation thanks to snap-in spring holder. Very homogeneous light distribution and high brightness. Ideal for illuminating retail areas, entrance halls, corridors or as a complement to offices. Very nice design light with low installation depth and external, Triac dimmable driver. Compatible with most of leading edge dimmers.

Nava LED recessed lights are available in different sizes and shapes: round or square. Nava is the perfect replacement for recessed luminaires with halogen lamps or CFL energy saving lamps. Due to the low price, the replacement of existing luminaires by Nava models pays for itself very quickly.

Applications:

residential, office, toilet, corridors, hotel, shops
