

Cetara Office 12030 BAP 32-830-3520LM

Product information "Cetara Office 12030 BAP 32-830-3520LM"

LED Panel

Litegear® Cetara LED panels are made to be installed in to ceilings or to be hung with clips on walls or ropes on ceilings. LED panels have a low power consumption and a long lifespan compared to traditional fluorescent luminaires. With optional hanging kits (a set contains 4 steel wires) the panel can be palced over desks or work areas. Panels create a light flooded atmosphere and look like a skywindow when illuminated. Litegear Cetara LED panels with prismatic cover are perfect to be used for computer desks in offices due to low UGR < 19. A Cetara Panel with 32W power consumption can replace a recessed ceiling light with 2 x T8 36W flourescent tubes and can save around 60% energy costs and lower the maintenance costs.

The Litegear LED Panels are available in different dimensions and color temperatures. They look really stylish and have a smooth light output. As an option we offer suitable LED driver in non dimming or dimming version with 1-10V, Dali, DMX, Zigbee or Push dim. Cetara Panels have a very high lumen output.

Technical Details:

Luminous Flux	3520 lm
Light Yield:	110 lm/W
Light Temperature:	3000 K
Color Rendering Index (CRI)	≥80 Ra
Color Consistency (SDCM):	3
Power Consumption:	32 W
Operating Hours:	>50.000 h L80/B20
Ignition Time:	<0,5 s
Ambient Temperature (TA):	-20°C - 45°C
Housing Material:	aluminum
Housing Color	white
Coating:	lacquered
Dimensions	1195x295x10 mm
Net Weight:	3100 g
Warranty	3 years
