Product information "Cetara Office 6262-36-830-4320LM"

LED Panel

Litegear® Cetara LED panels are made to be installed in to ceilings or to be hung with clips on walls or ropes on ceilings. LED panels have a low power consumption and a long lifespan compared to traditional flourescent luminaires. With optional hanging kits (a set contains 4 steel wires) the panel can be palced over desks or work areas. Panels create a light flooded atmosphere and look like a skywindow when illuminated. Litegear Cetara LED panels with prismatic cover are perfect to be used for computer desks in offices due to low UGR.A Cetara Panel with 25-36W power consumption can replace a recessed ceiling light with 4 x T8 18W flourescent tubes and can save around 60% energy costs and lower the maintenance costs.

The Litegear LED Panels are available in different dimensions and color temperatures. They look really stylish and have a smooth light output. As an option we offer suitable LED driver in non dimming or dimming version with 1-10V, Dali, DMX, Zigbee or Push dim. Cetara Panels have a very high lumen output.
Cetara Panels have a very high lumen output. up 120lm/W.
