Arbora Vario 80-927/950-10400LM Dim Sensor

Product information "Arbora Vario 80-927/950-10400LM Dim Sensor"

Elegant LED office floor lamp with dimmer, sensor and variable color temperature

The Arbora by Litegear is a very stylish floor lamp for perfect illumination of desks and computer workstations. Its unique optical design ensures perfect glare control with a UGR value of 6. The light distribution is 20W direct and 60W indirect.
The direct and indirect lightlevel can be dimmed separately and the light color can be adjusted to the demand and emotion of the user individually and continuously from warm white to daylight!
The built-in occupancy detector not only monitors the presence of persons but also permanently regulates the set brightness at the workplace via the built-in daylight sensor to 500 Lux. If you leave the desk for an extended period of20 minutes the light will dim down to 20% and after another 10 minutes will switch off. The light will utomatically switch on again when you return. Arbora is made of high quality aluminum and up to 10 lights can be connected to a standard 10A power outlet. The steel base has a cutout so that the light can also be positioned in the area of table legs. With its simple, stylish design, Arbora is a luminaire highlite for every executive floor and with its high system efficiency of up to 130 lumens / watt a true power-saving miracle!

Technical Details:

Luminous Flux	10400 lm
Light Yield:	130 lm/W
Color Rendering Index (CRI)	≥90 Ra
Color Consistency (SDCM):	4
Power Consumption:	80 W
Power Factor (PF):	0.95
Operating Hours:	>50.000 h L80/B10
Switching Cycles:	>200.000
Ignition Time:	<0,5 s
Ambient Temperature (TA):	-20°C - 40°C
Housing Material:	aluminum
Housing Color	silver
Coating:	powder-coated
Dimensions	1269x64x2028 mm
Net Weight:	11850 g
Warranty	5 years
