Product information "Axea L 6-20-930-2180LM max. 106lm/W"

LED Downlight
Axea L
Normally you find many downlights equipped with 35W HIT discharge lamps in shops. Now you can replace those ones with the Litegear® Axea L LED downlight and save over 60% costs for electricity. The beamangle is 38°, idealy for lighting up big areas from short distance. The long linfespan will save a lot of follow up cost for light bulbs as you have them with traditional lights. Axea L is available in different light colours. We offer separate optics in 12° and 24° for this series often used in museums or for a dynamic product presentation.
The stylish, timeless housing is generally painted in white but can be made in silver or black color on demand. LED luminairs from Litegear make your cost calculate able and produce less CO^2 for a greener environment. LED light produces much less heat, good to reduce costs for air condition to cool your surrounding. The heat of the chips can dissipate through big aluminum heat sink.
Please order a suitable LED-driver 36V 150-550mA max. 20W!
