

Cetara Square Seilabhängung 2m

Product information "Cetara Square Seilabhängung 2m"

LED Panel

Litegear® Cetara LED panels are made to be installed in to ceilings or to be hung with clips on walls or ropes on ceilings. LED panels have a low power consumption and a long lifespan compared to traditional flourescent luminaires. With optional hanging kits (a set contains 4 steel wires) the panel can be palced over desks or work areas. Panels create a light flooded atmosphere and look like a skywindow when illuminated. Litegear Cetara LED panels with prismatic cover are perfect to be used for computer desks in offices due to low UGR.A Cetara Panel with 36W power consumption can replace a recessed ceiling light with 4 x T8 18W flourescent tubes and can save around 55 to 60% energy costs and lower the maintenance costs.

The Litegear LED Panels are available in different dimensions and color temperatures. They look really stylish and have a smooth light output. We offer them in constant current version with TÜV approved LED driver. In our wide accessory range you can find also dimmable driver for Dali, push switch or 0-10V as an option. Cetara Panels have a very high lumen output.

Technical Details:

Housing Material:	steel
Housing Color	silver
Dimensions	1x2000 mm
Net Weight:	106 g
Warranty	5 years
