

Cetara Office 12030 36-830-4100LM

Product information "Cetara Office 12030 36-830-4100LM"

LED panel

Litegear® Cetara LED panels are used as a replacement for louvre luminaires. The classic rectangular design measuring 1200 x 300 mm can be attached to solid ceilings using an optional mounting frame or cable set. The wide beam angle distributes the light evenly over a large area. Our flat Litegear® LED panels simulate the incidence of light from a natural skylight. Cetara panels are suitable for universal use. The soft light creates a pleasant atmosphere and enables concentrated work. Quick and easy installation reduces installation costs.

The economical LED technology saves up to 60% electricity compared to conventional luminaires with fluorescent tubes. The Litegear® Cetara panel impresses with high colour rendering with a CRI greater than 80 Ra and very good brightness of up to 125lm/W. The favourable price guarantees a short amortisation period! Litegear® Cetara panels are available in various sizes and different light colours. As an option, we offer various LED ballasts as accessories, including dimmable LED drivers with 1-10V Dali, radio or push-button dimming.

Areas of application:

- Laboratory, hospital, office, conference room, corridor and reception, fitness centre, canteen, sanitary area and recreation rooms

Technical Details:

Luminous Flux	4100 lm
Light Yield:	114 lm/W
Light Temperature:	3000 K
Color Rendering Index (CRI)	≥80 Ra
Color Consistency (SDCM):	5
Power Consumption:	36 W
Operating Hours:	>50.000 h L80/B20
Ignition Time:	<0,5 s
Ambient Temperature (TA):	-20°C - 45°C
Housing Material:	aluminum
Housing Color	white
Coating:	lacquered
Dimensions	1195x295x10 mm
Net Weight:	2404 g
Warranty	5 years
