

VARIA-FLEX Stromschienenstrahlertubus max. 32W

Product information "VARIA-FLEX Stromschienenstrahlertubus max. 32W"

Modular LED track spotlight housing

The Varia-Flex track spotlight from the German manufacturer Litegear is based on a unique, innovative modular concept. The spotlight consists of combinable and interchangeable components such as a housing, screw-on LED ballast, an interchangeable LED module and a lens.

All parts can be assembled without tools in just a few seconds. In the event of a defect, individual components can be easily replaced, which is cost-efficient and sustainable. LED modules with different light colours can be replaced or optimised at any time.

- Standard LED driver with 4 selectable wattages: 23, 27, 29, 31 Watts
- Alternatively, Dali 2.0 dimmable LED drivers can also be plugged in
- Interchangeable lens available with 5 different beam angles: 20°, 24°, 38°, 45°, 60°
- 2 selectable housing colours: black and white
- compact LED module with bayonet catch: 4 selectable light colours: 2700K, 3000K, 4000K, 5000K
- Balanced surface-mounted housing can be tilted by 90° with a bracket for attachment to the LED power supply unit
- In order to obtain a complete track spotlight, users must combine various housing components with each other, delivery takes place in assembled condition!
- A spotlight always consists of a housing, an LED driver, an LED module, an interchangeable lens and a front ring
- High system efficiency: max. 130lm/W using CREE LED-COB
- Long service life of the LED module and ballast 50,000h
- High-quality aluminium housing

Technical Details:

Ambient Temperature (TA):	-10°C - 45°C
Housing Material:	aluminum
Housing Color	black
Coating:	powder-coated
Pivot Range pan:	350 °
Pivot Range tilt:	90 °
Dimensions	206x85x211 mm
Net Weight:	802 g
Warranty	5 years
