

Xona Maxima Basic 3h Battery Emergency Modul 1U 8-wire 800lm

Product information "Xona Maxima Basic 3h Battery Emergency Modul 1U 8-wire 800lm"

Maxima Basic Batterie Emergency Light modujle for Escape route lighting

- Integrated emergency light in a 1,5m blank cover
- Luminous Flux: 800lm symmetric beamangle 120° for corridors in supermarkets and warehouses
- exchangeable lenses with different beam angles available
- Li-Ion battery: 18650 10000mAh (4 cells)
- Power: 6W, 4000K
- Batterie duration time: 3h
- Auto matic selftest function with Status LED. weekly shorttest and annual full duration test
- optional IR remote for external sontrol of the luminaire from the ground position
- Steel cover with recessed escape route light and battery supply, battery is exchangeable
- 8 wire: for permanent power feeding and control + optional Dali control
- Including 2 turn lockers, pick up connector to trunking rail
- Alternative as DALI or wireless controlled version available
- optional wirelessc control via IR remote

Technical Details:

Luminous Flux	800 lm
Light Yield:	133 lm/W
Light Temperature:	4000 K
Color Rendering Index (CRI)	≥80 Ra
Color Consistency (SDCM):	5
Power Consumption:	6 W
Power Factor (PF):	0.5
Operating Hours:	>50.000 h L70/B50
Switching Cycles:	>50.000
Ignition Time:	<1 s
Ambient Temperature (TA):	0°C - 40°C
Housing Material:	aluminum
Housing Color	white
Coating:	powder-coated
Dimensions	1499x70x20 mm
Net Weight:	353 g
Warranty	5 years
