

Szena 45/50-840-4000LM

Product information "Szena 45/50-840-4000LM"

LED Tracklight

Litegear® Szena LED Tracklights are able to replace conventional halogen or discharge lights. They are very energy friendly and can save up 60-80% of energy costs. By the low power consumption and the high life it concerns a "Green Energy technology" product. Big heatsinks and a low noise fan guarantee a low temperature on the LED Chip and have an excellent airstream for efficient cooling. Litegear® LED tracklights are available with different power and different color temperatures.

Due to its extended lifespan you will save on maintenance cost as well. Compared to a 150W HQI discharge lamp you can save over 65% of energy and reduce maintenance costs almost to zero! The Szena serie of Litegear® has a very true color rendering.

Technical Details:

Luminous Flux	4000 lm
Light Yield:	77 lm/W
Light Temperature:	4000 K
Color Rendering Index (CRI)	≥85 Ra
Power Consumption:	52 W
Power Factor (PF):	0.94
Operating Hours:	>30.000 h L70/B50
Switching Cycles:	>50.000
Ignition Time:	<1 s
Ambient Temperature (TA):	-20°C - 40°C
Housing Material:	aluminum
Housing Color	white
Coating:	lacquered
Net Weight:	1550 g
Warranty	3 years
