

Röhre XERIA ALB 1500 27-840-3150LM

Product information "Röhre XERIA ALB 1500 27-840-3150LM"

LED Tube

The Litegear® XERIA ALB LED tube serie is the next generation of Retrofit tubes. More lightoutput, better efficiency, lower price, longer lifespan, slim and compatible design like original flouresvent tube and finally compatible to all kinds of ballasts. (compatible with 99% of all electronic ballasts) Xeria has the best performance ever! You can save more energy or just get better brightness in your applications. Very easy to replace traditional flouresvent tubes and save up to 60% of energy and long lasting lifespan. Just replace the traditional tube by the new Xeria tube from Litegear®. Done in seconds! Benefit from flicker free instant light with low glare and good color rendering. Xeria is suitable for all kind of T8 fixtures with G13 sockets. Available in different CCT colors and different lengths. LED is good for our environment: free of mercury and other toxic material. Change for a green future with LED tubes from Litegear®'s Xeria series.

Features:

- smooth light distribution
- Mercury free
- CO² reduction
- easy and quick installation, compatible with 99% of all existing electronic ballasts and with all magnetic ballasts or directly with 230V AC feeding
- long lifetime up to 40.000h
- flicker free instant start - no start up time

Scope:

- general illumination: supermarket and office
- public buildings such as schools or stations
- Lobby, Corridor illumination
- Parking places, logistics and industry

Technical Details:

Luminous Flux	3150 lm
Light Yield:	117 lm/W
Light Temperature:	4000 K
Color Rendering Index (CRI)	≥80 Ra
Color Consistency (SDCM):	3
Power Consumption:	27 W
Power Factor (PF):	0.95
Operating Hours:	>40.000 h L70/B50
Switching Cycles:	>50.000
Ignition Time:	<1 s
Ambient Temperature (TA):	-20°C - 45°C
Dimensions	26x1500 mm
Net Weight:	414 g
Warranty	3 years
