

Röhre Astrum Eco Line 900 14.5-830-1280LM

Product information "Röhre Astrum Eco Line 900 14.5-830-1280LM"

LED Tube

Very efficient LED tube to replace traditional T8 fluorescent tubes with G13 sockets. These Litegear® Astrum Line LED tubes are manufactured to the latest European standards. For safety reasons they have power input only from one side and a fuse bridgestarter included that has to replace the old starter. These LED tubes have a very high brightness and can save up to 70% of energy compared to the traditional tubes. Very easy to exchange within seconds.

Due to their long lifespan, return on investment will be reached in short time. The Litegear® Astrum Line stands for a greener future and highest security standards. It's time to change! All tubes are available in different color temperatures and different lengths. All Astrum Line LED Tubes can be driven with magnetic ballasts. Electronic ballasts have to be bridged by a professional electrician company.

Technical Details:

Luminous Flux	1280 lm
Light Yield:	88 lm/W
Light Temperature:	3000 K
Color Rendering Index (CRI)	≥80 Ra
Power Consumption:	15 W
Power Factor (PF):	0.96
Operating Hours:	>40.000 h L70/B50
Switching Cycles:	>100.000
Ignition Time:	<1 s
Ambient Temperature (TA):	-20°C - 40°C
Housing Material:	aluminum
Housing Color	silver
Dimensions	28x900 mm
Net Weight:	380 g
Warranty	3 years
